

What is HydraFacial Syndeo MD?

HydraFacial Syndeo MD begins with a personalized self-assessment and skin analysis for an elevated experience. HydraFacial treatments are tailored to your specific skin concerns without irritation or downtime. The **new** Hydrafacial Syndeo MD features LightStim Elipsa LED light therapy. This custom, multi-step treatment is designed to improve the look and health of your skin through nourishment, restoration, and damage prevention. Mechanical lymphatic drainage detoxifies and optimizes your skin health for radiant, naturally healthy skin-inside and out.

What are the benefits of HydraFacial Syndeo MD?

Optimal results are seen after a series of treatments

- Customized to address individuals' concerns
- Immediate, long-lasting results with no downtime
- Gentle exfoliation and extractions remove dead skin cells and other impurities
- Improves the appearance of: rough texture, acne, hyperpigmentation, redness, congested pores, uneven skin tone and fine lines

What can I expect during and after treatment?

- Cleanse and Peel: Uncover a new layer of skin with gentle exfoliation and resurfacing
- Extract and Hydrate: Painless suction removes debris from pores, nourish and quench the skin with intense moisturizers-*Advanced peel Included in the Ultimate treatment only*
- Fuse and Protect: Saturates the skin's surface with antioxidants and peptides to maximize your glow
- Lymphatic Therapy Optimizes skin's health by encouraging detoxification through mechanical lymphatic therapy while increasing circulation that will fuel the cells with nourishment-*Included in the Ultimate treatment only*
- Medical Boosters target specific skin concerns such as acne, rosacea, pigmentation, wrinkles, dry & dehydrated skin-*Included in MD treatments only*
- LightStim LED medical Light Therapy: Increases collagen and elastin production, reduce inflammation, speed healing, increase circulation, and destroy acne bacteria
- Relax: Relieves stress & tension with a relaxing neck and shoulder massage. Treatment is finished with a rejuvenating exfoliation and soothing hand & arm massage-*Included in MD treatments only*
- Lip Perk Treatment gives your pout a refreshing treatment that exfoliates, hydrates and gently plumps the lips. —or— Eye Perk Treatment gently cleanses, exfoliates & deeply hydrates to brighten, smooth & refresh the delicate tissue in the eye area. Reduces puffiness, dark circles, smooths fine lines & wrinkles-*Included in Ultimate*
- Temporary mild redness may accompany this treatment but it is usually resolved within a few hours

Pre-Treatment Care

Prep the skin using the recommended Environ system for optimal results

- Discontinue any treatment topicals and prescription medications as directed
- We recommend waiting 2 weeks after facial injections, laser treatments, or chemical peels before starting treatment

We treat your skin.
You treat yourself.

297 Spindrift Drive
Williamsville, NY 14221
716.300.1444

- No sun exposure or tanning beds for 1 week prior to treatment
- Remove all makeup, creams or oils prior to treatment

Post Treatment Care

- Recommended Skin Care Regimen can be resumed post treatment
- Bathe and shower as usual. Treated areas may be temperature-sensitive
- Avoid sun exposure for one week after treatment. We recommend EltaMD/Alastin/Brush on Block. It is recommended to make this part of your skincare routine
- Makeup can be applied immediately after treatment

What are the possible side effects?

- Dryness, redness and acne breakouts can occur. These symptoms usually resolve quickly
- Sun, tanning beds and not adhering to the post treatment instructions provided to you may increase your chance of any complications
- Reactivation of oral herpes virus may occur

Contraindications

- Recent sun exposure or use of topical tanning creams/lotions/sprays
- Any active skin condition in the treatment area, such as sores, psoriasis, eczema, and rash
- Having received treatment with light, laser, RF, or other devices in the treatment area within 2 weeks prior to treatment
- Intra-dermal or superficial sub-dermal areas injected with Botox®/HA/collagen/fat injections or other augmentation methods 2 weeks prior to treatment
- Use of Isotretinoin (Accutane®) within 6 months prior to treatment
- On immunosuppressive drugs
- Pregnant and nursing
- Epilepsy or extreme sensitivity to light

Consent

- I understand that multiple treatments may be necessary for optimal results
- I understand results may vary depending on skin condition, skincare regimen, and daily SPF use
- I understand, although highly unlikely, it is possible that I will not experience any noticeable result from the procedure
- Particular results cannot be guaranteed, given that each body may react differently
- I understand that sun exposure, as well as not adhering to the post treatment instructions provided to me may increase my chance of complications
- I consent to photographs being taken and used to evaluate treatment effectiveness, for medical education, training, professional publications, or sales purposes
- Before and after-treatment instructions have been discussed with me. The procedure, potential benefits and risks, alternative treatment options, and a customized skincare plan has been explained to my satisfaction
- I have read and understand all information presented to me before consenting to treatment and I have had all my questions answered
